Education

University of Illinois at Urbana-Champaign (UIUC)

Aug. 2017 – Exp. Dec. 2018

Master of Computer Science

GPA 3.96/4.0

East China Normal University (ECNU)

Sep.2012 – Jul.2016

B.Eng. in Software Engineering (minor in Embedded System)

GPA 3.6/4.0 (Rank: 1/53) | National Scholarship

Skills

Language	Java Python C++ C# PHP Lua JavaScript HTML5 CSS3 SQL Matlab Verilog
Framework	Vue.js Angular.js React.js d3.js FLASK Spring LAMP Spock MySQL Druid Hadoop
Tools	Jenkins TravisCI Git SourceTree Selenium Linux/Unix Webpack Grunt Gulp Yeoman Maven Groovy AWS Heroku Cpanel OpenStack Digital Ocean Unity3D
Certification	EMC Academic Associate (Information Storage and Management)

Work Experience

Yahoo! (Oath Inc.) - Ads., Data Platform & System Engineering Dept.

Jun. 2018 – Aug. 2018

Java, Lua, Jackson, Druid/Hadoop, Groovy/Maven/Spring/Spock, Linux/Unix

Software Engineer Intern

- Developed Luthier, a smooth and robust external configuration module for **Fili** [\[link\]](#) (an Open Source REST API written in Java, makes web services for time series reporting with Big Data analytics engines like Druid and Hive). Allowing users to configure Fili through a little line of Lua code.
- Contribute more than 5000 line codes, have an enormous impact within the company for the analytics stacks that rely on Fili.

HP (Hewlett Packard Enterprise) - ALM Group, Software Dept.

Jul. 2015 – Jan. 2016

AngularJS, LESS/Sass, Yeoman/Gulp/Bower, IONIC/Cordova

Software Engineer Intern

- Developed the frontend of HP core product **ALM Octane** [\[link\]](#) (a Software Development Life Cycle Management System) and **ALM QoT** (an SDLC management system on the mobile end).
- Contribute about 5000 line codes and a dashboard to visualize the software lifecycle process.

Research Experience

New York University

Jan. 2016 – Jun. 2017

FLASK, Python, D3.js

Research Assistant

- Implemented a new d3 based visual analytics system to support user-guided rare category exploration.
- Proposed a novel machine learning algorithm (LOFRCD) to iteratively identify more accurate rare categories in response to user-provided feedback.
- Published an article on IEEE TVCG as the first author. Invited as Reporter on IEEE VIS 2017 conference.

Project Experience (more projects on [hanfeilin.me](#))

- **My Portfolio** [\[hanfeilin.me\]](#) (LAMP + Wordpress) | **My blog** [\[hanfeilin.com\]](#) (Hexo + Node.js)
- **DonkeyDokie** [\[link\]](#) (Materialize + Vue.js + LAMP + AWS) Leader & Full Stack Developer of 4
- Developed a platform with trustworthy users that helps with travel patterns hunting, trip organizing and etc. Including a recommendation system, data visualization and web-socket based real-time chat system.
